MICROSOFT DYNAMICS 365 GUIDES WITH HOLOLENS 2

Learn about the future of work with Microsoft Dynamics 365 Guides and HoloLens 2.

Experience innovation for yourself: In this one-day hands-on workshop, we'll show you how to create a mixed reality work environment on HoloLens 2 in Microsoft Dynamics 365 Guides effectively augmenting reality. This tool helps employees in your organization to learn, communicate, and collaborate more effectively. With your knowledge of these solutions, you'll lead your industry into the future by improving learning of training processes.

Schedule 2022

03/17/2022
04/22/2022
05/16/2022
06/13/2022
07/11/2022
08/22/2022
09/19/2022
10/17/2022
11/14/2022
12/12/2022

Duration
1 day (9:00 am – 04.30 pm)

Price net
€ 590,00 plus VAT

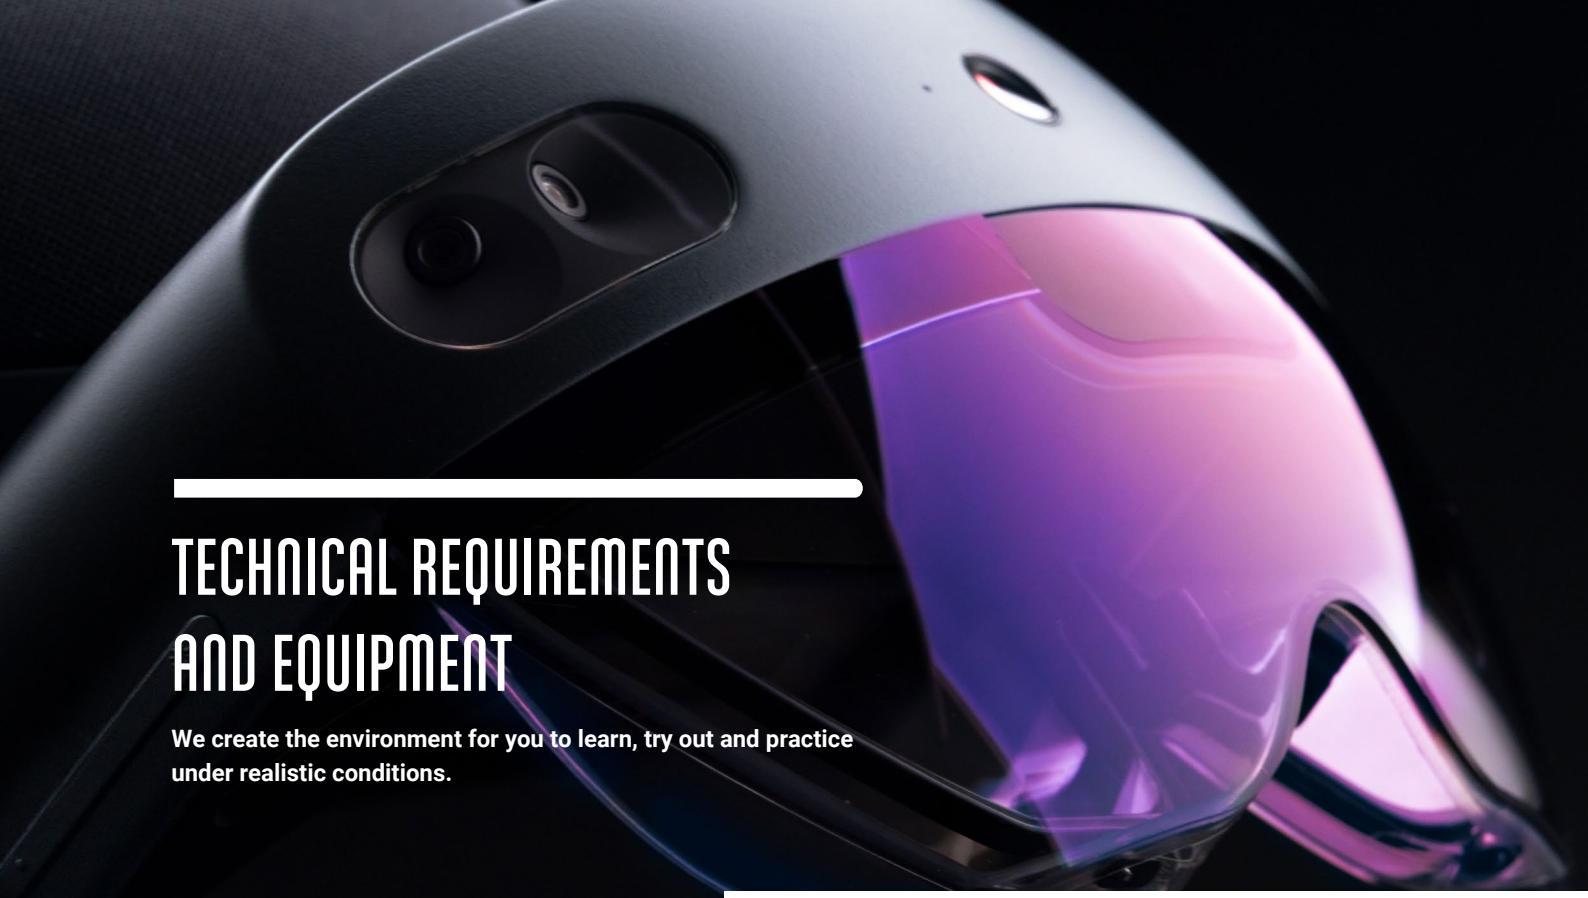
Included
Nespresso capsule coffee machine
(for the practical exercises)

Optional

Rental fee Hololens:
€ 400,00 plus VAT for 4 weeks incl. insurance and return shipment

Rental fee notebook:
€ 200,00 plus VAT for 4 weeks incl. insurance and return shipment

Register



TECHNICAL REQUIREMENTS AND EQUIPMENT

We create the environment for you to learn, try out and practice under realistic conditions.

01

Prerequisite for participation

For the training, we assume professional handling of Windows 10 as well as knowledge of simple administrative handles. Beyond that, you do not have to fulfill any special requirements for participation. Neither prior knowledge of Dynamics 365 nor experience with HoloLens 2 is required.

A Windows 10 PC, a HoloLens 2 and a training object, the coffee capsule machine as a physical workpiece, on which Guides will be practically applied, are required for participation.

02

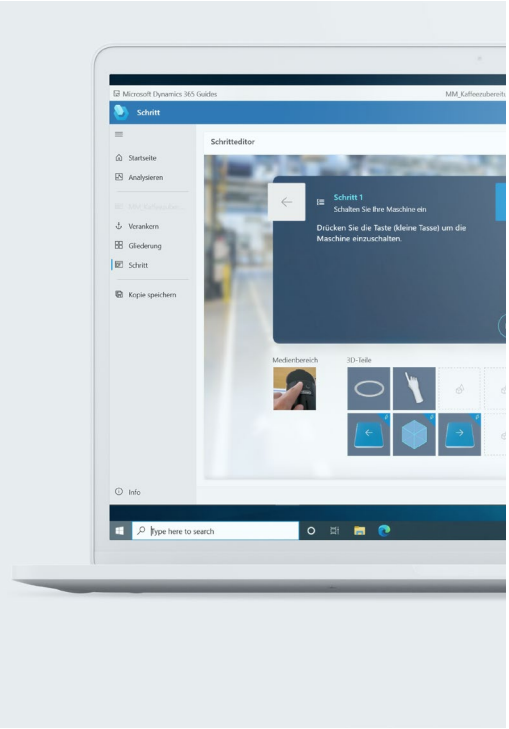
Provisioning of a HoloLens 2

If a HoloLens 2 is not available, we offer you through a partner to rent a HoloLens for the duration of the training and a total period of four weeks. This enables you to continue working and practicing with the device after the actual workshop. If required, the HoloLens 2 will be delivered to the address of your choice after booking the training. It is insured for the specified period and can be used freely. After the four weeks have elapsed, the device will be returned to you with the enclosed return voucher in the existing outer packaging.

03

Hardware and software installation

A PC with the current Windows 10 version is required. A Dynamics 365 Guides installation instruction will be provided. If you are using your own HoloLens 2, the permissions to install and manage HoloLens are required. Dynamics 365 Guides is installed on the HoloLens via the Store. Optionally, INCAS provides you with a HoloLens 2 as well as a notebook with a pre-installed Dynamics 365 Guides training environment.



Your exercise environment for training

04

Capsule coffee machine as a test object

In order to provide all participants with the same training environment, INCAS will provide you with a Nespresso capsule machine, which will be sent to you as a new item before the training (De Longhi Nespresso capsule machine).

The Nespresso capsule machine remains with you after the training, so that you can reproduce the exercises from the training at a later time and you can create new step-by-step instructions. It is an integral part of the training.

WORKSHOP CONTENT

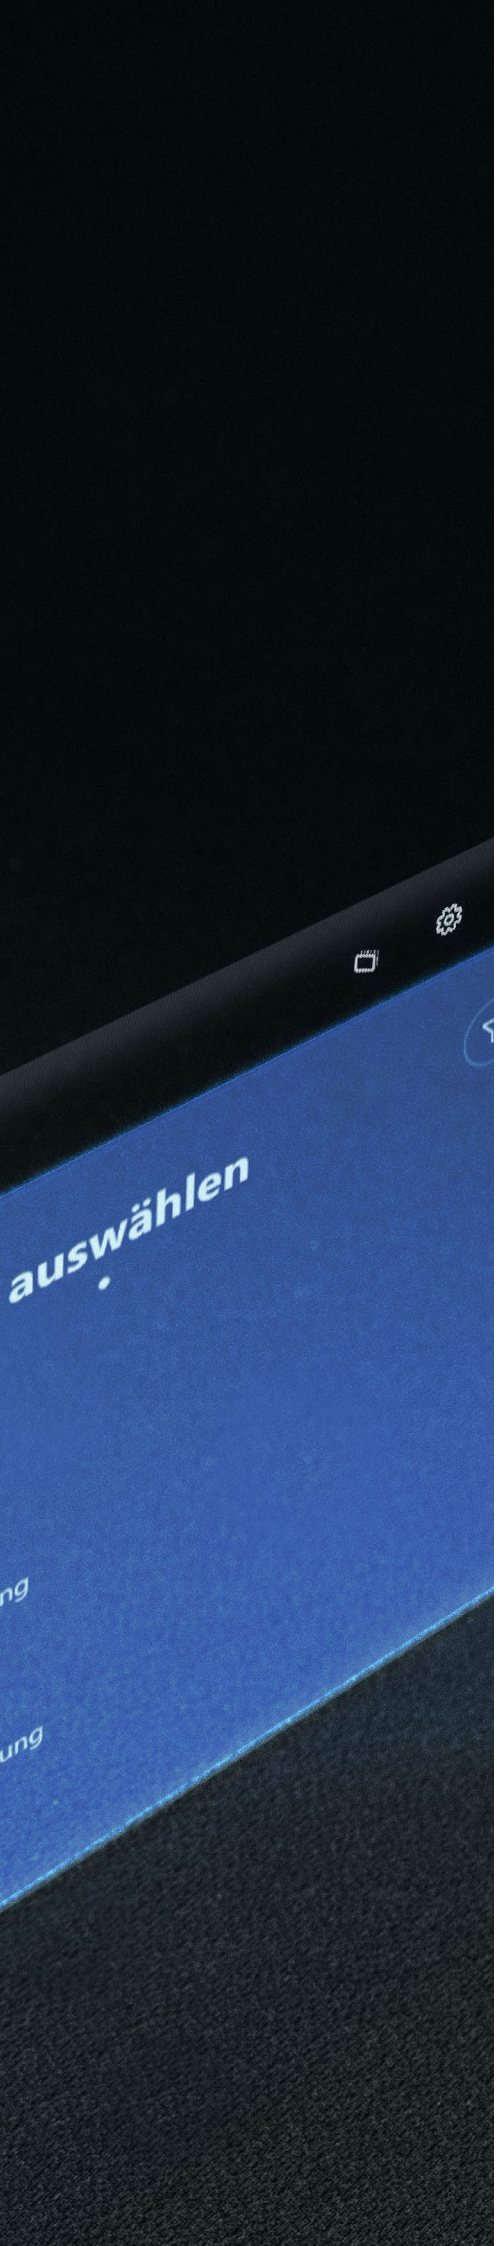
01

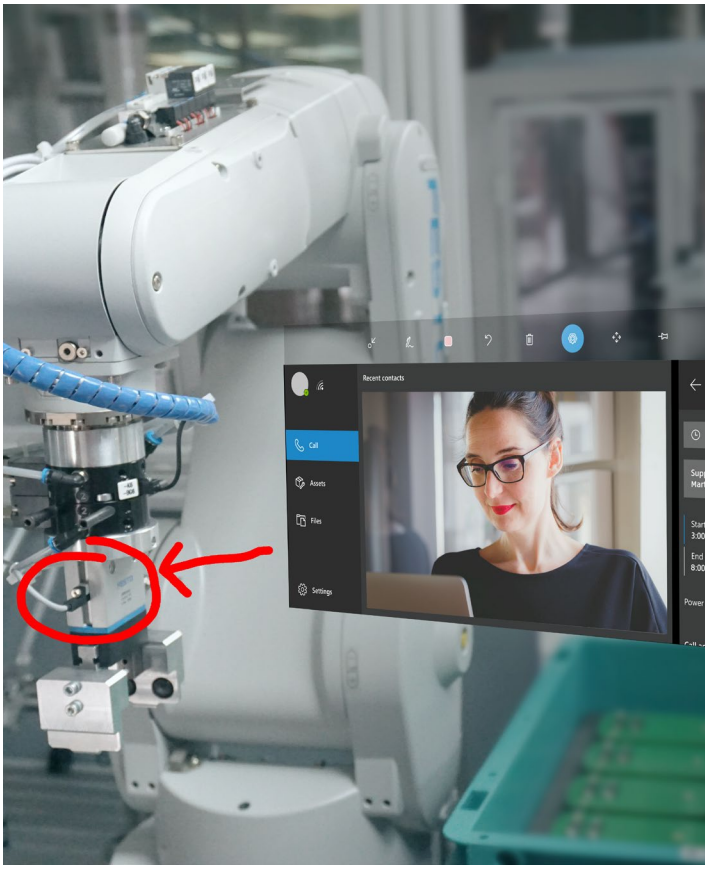
Introduction to Microsoft HoloLens 2
Get a basic overview of features, tips, and tricks for using Microsoft HoloLens 2.

Set up useful features like the Windows Device Portal or using Mixed Reality Capture to get a live preview right on your PC.

02

Introducing Microsoft Dynamics 365 Mixed Reality
Get a glimpse into the world of Microsoft Dynamics 365 Mixed Reality.





Remote Assist

03

Introducing Dynamics 365 Remote Assist
Set up the Remote Assist app in interaction with Microsoft Teams.

Get a hands-on demonstration of various cross-hardware remote assist scenarios.

04

Dynamics 365 Guides – Administration as Admin
Learn step-by-step how to acquire guides via the Microsoft 365 Admin Center and install them via Power Platform.

Get a demonstration of how to configure and manage each user.

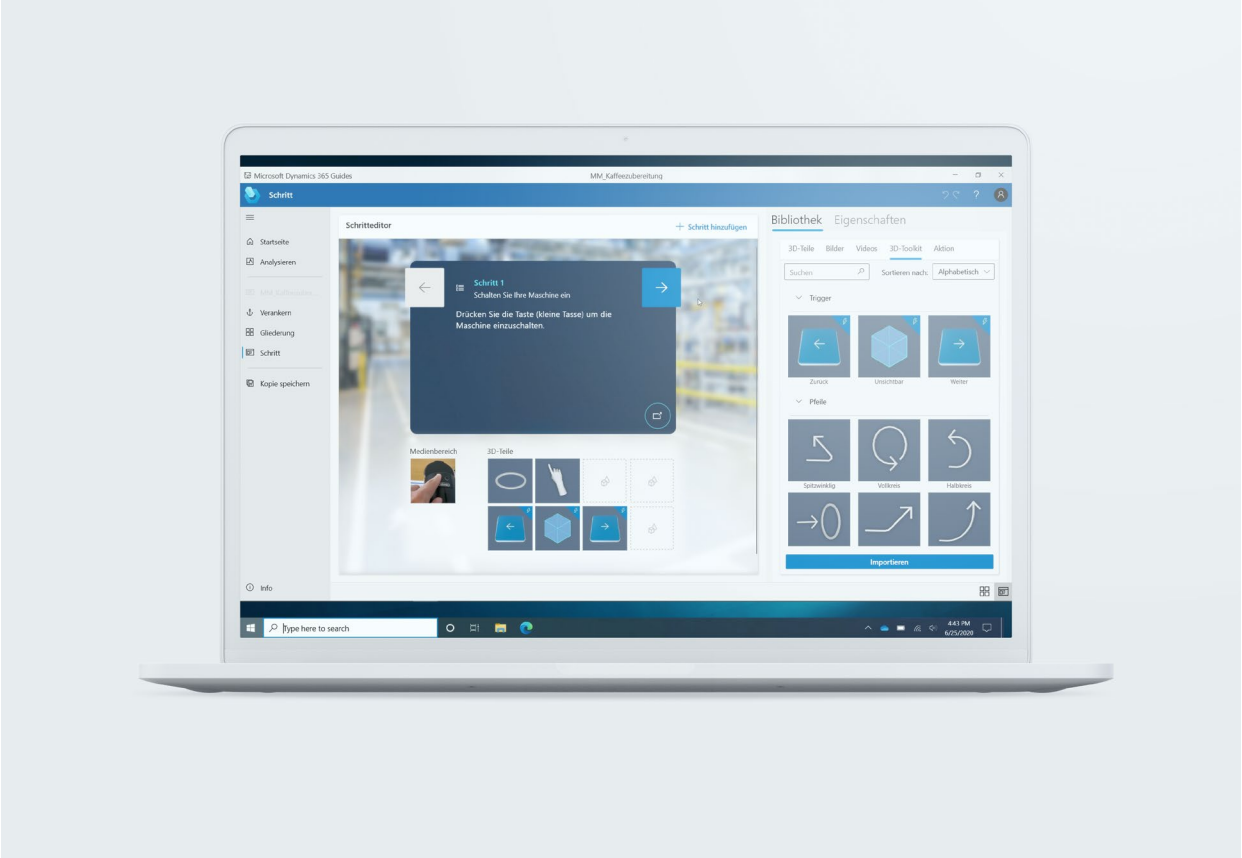
05

Creating your first guide as an author

Create step-by-step instructions using the Microsoft Guides application on your computer.

Learn how to optimally set the anchoring of the real world holograms.

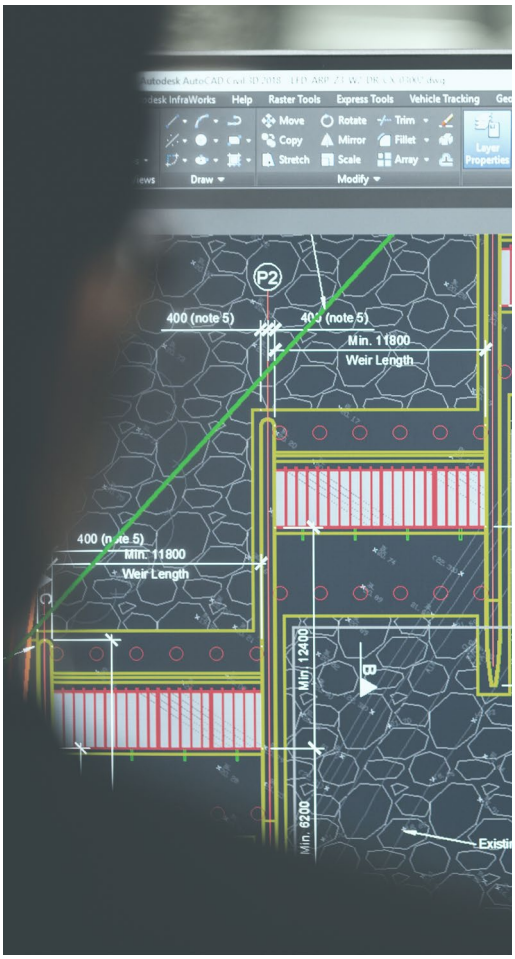
Link the interactive content to real-world objects in "Author" mode on Microsoft HoloLens 2. Gain insight into the development of detailed work instructions by inserting photos, videos, actions, triggers and importing your own 3D models. Link interactive content to real-world objects in "Author" mode on Microsoft HoloLens 2.



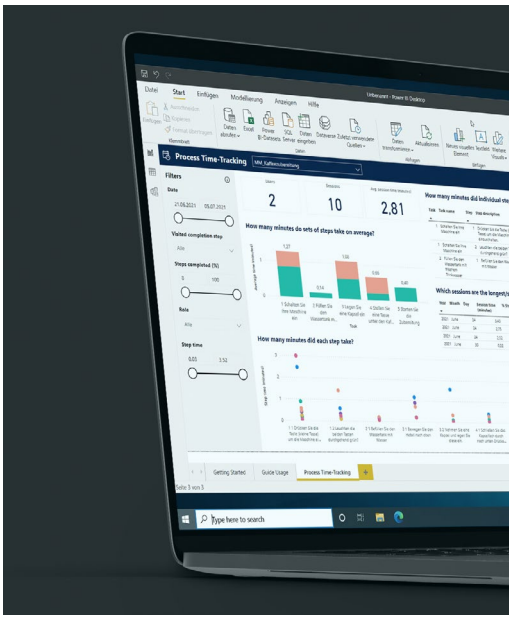
06

Dynamics 365 Guides - Use as operator

Take on the role of operator and run your created guide. Learn how to use voice commands or run the guides in offline mode.



CAD Convert



Power BI Report

07

Working with 3D models

Get a hands-on demonstration of converting 3D data (CAD) to polygon data for HoloLens 2 and Microsoft Guides.

Learn how to optimize your 3D data for HoloLens 2.

08

Analyzing performance data

Use the Power BI desktop app to analyze data from Microsoft Guides.

Set up the Power BI Report Template for Microsoft Dynamics 365 Guides to identify training needs and optimize your workflows.

WHY INCAS TRAINING?

INCAS Training is a popular partner for the industry when it comes to professional IT training since 1998. As a Microsoft Gold Certified Partner from the very beginning, we offer cross-technology and solution-oriented training that generates sustainable and applicable knowledge. Solving complex requirements often requires more than one tool: As an Autodesk, Unity and Unreal Engine training partner from the very beginning, we know the requirements in industry, corporations and medium-sized businesses.

For us, learning is the mirror image of teaching. Good teaching by dedicated trainers always leads to success.

ONLINE TRAINING FROM INCAS TRAINING

INCAS Training is a Microsoft Learning Partner and market-leading provider of immersive technology training.

GOALS ACHIEVED AFTER TRAINING

YOU UNDERSTAND THE HANDLING CONCEPT OF HOLOLENS 2

YOU CAN INSTALL MICROSOFT GUIDES AND UNDERSTAND THE INTEGRATION IN DYNAMICS 365

YOU CAN CREATE YOUR OWN INSTRUCTIONS IN GUIDES

YOU HAVE AN INSIGHT INTO THE POSSIBILITIES TO CUSTOMIZE GUIDES TO YOUR NEEDS

CONTACT PERSON

Kundenzufriedenheit steht bei mir an oberster Stelle. Weiterbildung ist Vertrauenssache. Ich möchte unsere Kunden und deren Prozesse kennenlernen und ihre Anforderungen verstehen. Denn nur so können wir bei INCAS werthaltige öffentliche Trainings oder gemeinsam mit dem Kunden einen maßgeschneiderten Workshop planen.

Stephan Otten
Geschäftsführer
